

CULTURE AUDIT

Lead your organisation to the creation of great Culture

The Team Focus Plus Culture Audit gives leaders visibility of their organisational culture and a road map to make it great and lead their people to be their best.

Leverage your cultural strengths and take advantage of opportunities. Understand what is happening, why it's happening and how to address it.

AUDIT PROCESS

The starting place in creating an inspiring culture is to audit current culture and the most comprehensive audit is qualitative.

This involves experienced facilitators conducting interviews and focus groups with a representative sample from your organisation. These discussions will highlight priorities, values, and drivers of behaviour within your organisation. We elicit the truth about your culture and develop a deep understanding of what is happening in "real life"

We are skilled at interpreting the messages conveyed by your people, including what is not said. Our findings are presented in a comprehensive report that creates a foundation that will empower you to create great culture and lead your people to be their best.
